Thanks Faruque. That explains why we were unable to find the VP for choline.

Sujatha,  
2,4-D (choline) is a non-volatile solute. The vapor pressure of acid molecule should be representative of 2,4-D (choline). Faruque

 Sujatha Sankula---05/10/2012 10:49:35 AM---Emily and Kay We tried to find the vapor pressure for the new salt of 2,4-D (choline) and are unable

Emily and Kay

We tried to find the vapor pressure for the new salt of 2,4-D (choline) and are unable to locate anything on this. Do you guys have this info in the product chemistry data. If not, can you please check with the registrant on this. Thank you.
